Data sheet

Printing techniques

Offset printing: good
 Screen printing: good
 Hot stamping: excellent
 Dry debossing: excellent
 Coating: excellent
 UV coating: excellent
 Print oxidation: 1

Abrasion resistance

Abrasion resistance: media/alta
 Wet strength: medium/high

Notes for printing and inks

For better results in offset printing, we advise you to avoid high piles and allow to dry thoroughly before proceeding to the subsequent processing phases. We recommend using high-quality oxidising or quick-set inks. If the offset machine is equipped with an IR dryer, we recommend using it.

PRINT OXIDATION

Hot stamping in gold, silver or metals on black paper can generate oxidation or marbling effects in particularly hot and humid weather conditions or if unsuitable films are used. In such cases, we recommend using NO-OX (antioxidant) material available on request
